

AIDAN MCALISTER

FULL-STACK DEVELOPER

Tulsa, Oklahoma | 918-894-3658 | aidankmcalister@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#)

SKILLS

VSCode, GitHub, React.js, Redwood.js, Next.js, React Native, JavaScript, TypeScript, Python, Prisma, GraphQL, HTML, CSS, Tailwind, Bootstrap, REST API, Git, Windows, Mac OS

WORK EXPERIENCE

ELEVATE DIGITAL, INC. — REMOTE — JANUARY 2024 TO PRESENT — [ELEVATEDIGITAL.IO](https://elevatedigital.io)

Software Developer

- Developed custom features, including a filter system, reusable components, and CRUD systems, using RedwoodJS and Tailwind CSS to meet specific project requirements.
- Prioritize writing clean and efficient code to uphold high standards of quality and facilitate ease of maintenance throughout the development lifecycle.
- Collaborate with team members to identify opportunities for improvement and optimization, ensuring continuous enhancement of project outcomes and development processes.
- Leveraged Prisma and GraphQL to store, manipulate, and remove data from the database.

PROJECTS

GIGSTACK — [HTTPS://GITHUB.COM/AIDANKMCALISTER/GIGSTACK](https://github.com/aidankmcalister/gigstack)

REDWOOD.JS, TAILWIND, PRISMA, GRAPHQL, TYPESCRIPT

- Created a platform that enables musicians to create and share gig opportunities, integrating robust user authentication.
- Designed a user-friendly interface for easy posting and browsing of gigs, enhancing accessibility and convenience.
- Utilized a combination of Redwood.js, Tailwind, Prisma, GraphQL, and TypeScript to optimize performance and user experience.
- Integrated features allowing users to search and filter gigs by instruments wanted and date created, facilitating efficient navigation.
- Developed CRUD functionalities empowering users to manage their gig posts effortlessly, enhancing overall user and experience.

WHATTODO — [HTTPS://GITHUB.COM/AIDANKMCALISTER/WHATTODO](https://github.com/aidankmcalister/whattodo)

REDWOOD.JS, TAILWIND, PRISMA, GRAPHQL, TYPESCRIPT, AUTH0

- Designed a modern Todo app using RedwoodJS, TailwindCSS, Supabase, and deployed on Vercel.
- Enabled secure user authentication with Auth0 for sign-up, login, and logout.
- Engineered comprehensive CRUD functionality for managing todo items.
- Incorporated a sleek dark mode interface for improved user experience.

EDUCATION

FULL STACK DEVELOPMENT, MARCH 2023 TO JANUARY 2024 — *Nucamp Bootcamp*— Remote

CORE COMPETENCIES

- User Experience Optimization
- Full-Stack Development
- Project Management
- Responsive Design Principles
- Continuous Learning
- Adaptability
- Strategic Planning
- Problem-Solving
- API Integration
